

Call For Innovation & Outcome-Based Spiral Contracting Mechanism

Vicky Tang

Assistant Director,
Innovation Capabilities Enablement (ICE)

HealthX Call-for-Innovation is an open innovation platform that crystallises aspirations and captures values, by experimenting ideas and solutions with industry partners in an agile and iterative basis. Through collaboration with Public Healthcare Institutions (PHIs), challenge statements are published on the Call-for-Innovation platform to seek solutions from the industry that benefit healthcare providers and receivers.

Stay tuned for the launch of Call-for-Innovation (CFI) on HealthX portal

HealthX Call-for-Innovation is a platform to solicit ideas from industry to solve real world challenges

Enhancing food diet preparation and dispensing process to optimise nurses' utilisation and productivity during meal and feeding times

Submissions closed: 28 Aug 2023

Improve the monitoring of residents living in a nursing home to enable more effective oversight and timely intervention of residents in distress or need assistance

Submissions closed: 28 Aug 2023

Enhancing Patient Remote Monitoring adoption with better user experience in home setting

Submissions closed: 28 Aug 2023

Enhancing operations of medical consumables in Public Health and Institutes (PHIs)

Submissions closed: 25 Oct 2023

Building a virtual/digital avatar to host visitors and augment PSA staff to support visitor and patient queries

Submissions closed: 31 Oct 2023

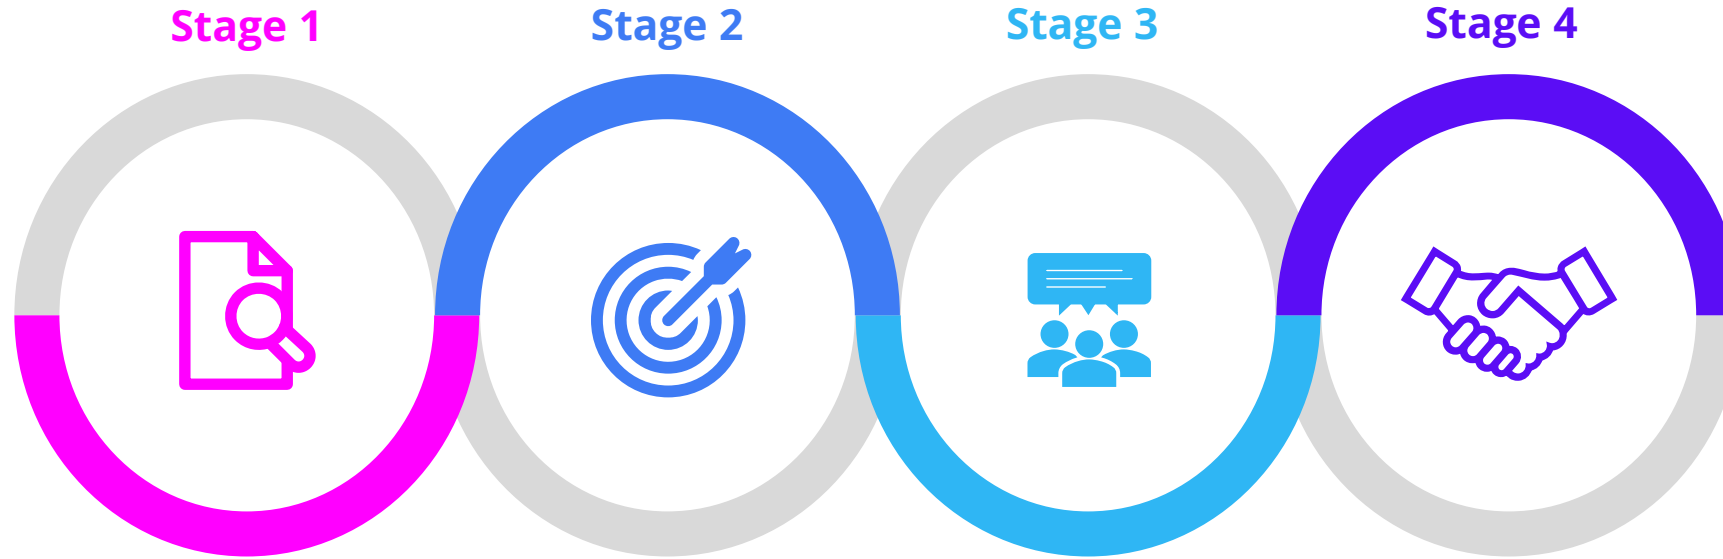

Building a virtual nursing platform to enable nurses to optimise productivity and improve quality and coverage of patient care

Submissions closed: 22 Nov 2023

Snapshots of past 'Call-For-Innovation'

Here is what you can expect when you participate in HealthX Call-for-Innovation

Call for Innovation

Interested industry partners can browse through the HealthX portal and submit their proposals¹

Shortlisting

An evaluation panel will perform preliminary assessment to qualify submitted proposals and industry partners

Pitch Session

Shortlisted industry partners will be invited for a proposal pitching session to the evaluation panel

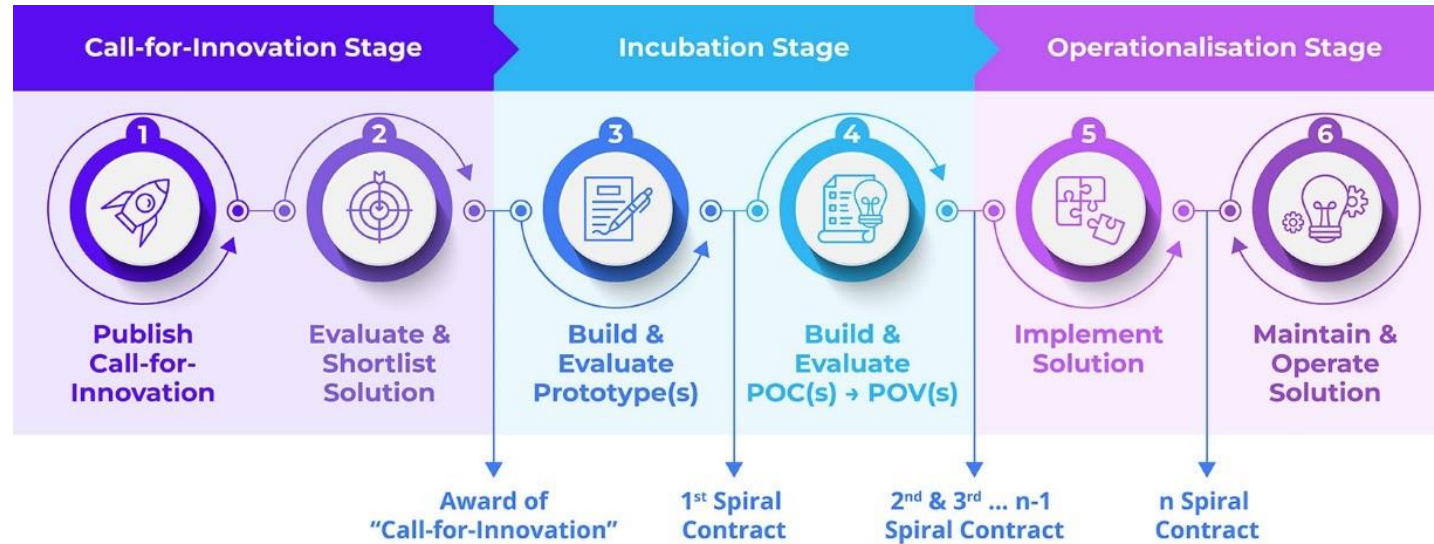

Collaboration

Selected industry partners from the pitch session will have the opportunity for further exploration to take the project forward

The **Outcome-Based Procurement/ Spiral Contracting** mechanism kickstarts from this point (next slide)

Outcome-Based Procurement/ Spiral Contracting: Enhancing speed to market for successful innovations

Designed to enable **innovation projects to spiral from POC to POV to mainstream** provided a defined set of outcomes is met at the completion of each stage

Shortlisted partner(s) will be offered **Master Collaboration Agreement** at stage 3, along with the corresponding POC scope and work order at that stage.

If the defined outcomes are met at the end of each stage, the industry partner will be offered a **spiral contract (next work order) to progress** to the next stage.

At stage 5, a standard **mainstream contract** will be offered, along with the corresponding mainstream processes and required governance structures.

End of Presentation

THANK YOU
